

# BIGHORN SHEEP HABITAT EVALUATION FIELD FORM

<b>Location: Confluence</b>		<b>Start #</b>	<b>End #</b>
<b>Category</b>	<b>Score</b>	<b>Excellent 10</b>	<b>Poor- 0</b>
<b>Slope</b>	8	Suitable, >50-100%, varied, rock outcrops	Unsuitable- flat or vertical
<b>Lambing Habitat</b>	4	Isolated lambing shelves with difficult access	Few or none
<b>Accessibility</b>	10	Travel lanes between benches and around cliffs	Solid cliffs with no visible travel possibilities
<b>Livestock use</b>	6 bottom 9 top	None	Heavy trailing and surface structures, including fences etc.
<b>Vegetation</b>	7 bottom 8 top	Native range with good shrub and bunch grass components	cheatgrass or seedings, no shrubs
<b>Water sources</b>	8	Numerous perennial, esp. springs high on canyon wall	None
<b>Notes: A water source is the river.</b>			
Lots of side drainages.			
Good grass on point between drainages			
west side of the canyon more heavily grazed in the canyon and on plateau.			
Bruneau/Jarbidge upstream to Long draw			
8/26-27/1994			
3,869 Acres/ 30 sheep			

# BIGHORN SHEEP HABITAT EVALUATION FIELD FORM

<b>Location:</b> Long Draw		<b>Start #</b>	<b>End #</b>
<b>Category</b>	<b>Score</b>	<b>Excellent 10</b>	<b>Poor- 0</b>
<b>Slope</b>	8	Suitable, >50-100%, varied, rock outcrops	Unsuitable- flat or vertical
<b>Lambing Habitat</b>	3	Isolated lambing shelves with difficult access	Few or none
<b>Accessibility</b>	10	Travel lanes between benches and around cliffs	Solid cliffs with no visible travel possibilities
<b>Livestock use</b>	6 Plateau 8 Canyon	None	Heavy trailing and surface structures, including fences etc.
<b>Vegetation</b>	10	Native range with good shrub and bunch grass components	cheatgrass or seedings, no shrubs
<b>Water sources</b>	3	Numerous perennial, esp. springs high on canyon wall	None
<b>Notes:</b> Slope has only moderate rock outcroppings. The upper end of draw is dry. Long way to water. Could perhaps benefit from a guzzler in this location if we could keep the cattle out. Roads on plateau. Old burn on top of ridge.			
8/26-27/1994			
1,481 Acres/ 12 sheep			

# BIGHORN SHEEP HABITAT EVALUATION FIELD FORM

<b>Location:</b> Cedar Tree		<b>Start #</b>	<b>End #</b> 42 14 24 115 39 72
<b>Category</b>	<b>Score</b>	<b>Excellent 10</b>	<b>Poor- 0</b>
<b>Slope</b>	5	Suitable, >50-100%, varied, rock outcrops	Unsuitable- flat or vertical
<b>Lambing Habitat</b>	2	Isolated lambing shelves with difficult access	Few or none
<b>Accessibility</b>	10	Travel lanes between benches and around cliffs	Solid cliffs with no visible travel possibilities
<b>Livestock use</b>	4 plateau 5 canyon	None	Heavy trailing and surface structures, including fences etc.
<b>Vegetation</b>	6 top 8 slopes 6 bottom	Native range with good shrub and bunch grass components	cheatgrass or seedings, no shrubs
<b>Water sources</b>	8	Numerous perennial, esp springs high on canyon wall	None
<b>Notes:</b> Water source is river only. Narrow ribbon of habitat along river but open enough that			
is grazed by cows west plateau looks hard grazed. East side with rams.			
Long Draw upstream on Bruneau			
8/26-27/1994			
5,277 Acres/ 41 sheep

# BIGHORN SHEEP HABITAT EVALUATION FIELD FORM

<b>Location:</b> Triguero Homestead		<b>Start #</b>	<b>End #</b> Road out of canyon on west
<b>Category</b>	<b>Score</b>	<b>Excellent 10</b>	<b>Poor- 0</b>
<b>Slope</b>	10	Suitable, >50-100%, varied, rock outcrops	Unsuitable- flat or vertical
<b>Lambing Habitat</b>	8	Isolated lambing shelves with difficult access	Few or none
<b>Accessibility</b>	10	Travel lanes between benches and around cliffs	Solid cliffs with no visible travel possibilities
<b>Livestock use</b>	4 top 6 plateau	None	Heavy trailing and surface structures, including fences etc.
<b>Vegetation</b>	4 top 6 plateau	Native range with good shrub and bunch grass components	cheatgrass or seedings, no shrubs
<b>Water sources</b>	8	Numerous perennial, esp springs high on canyon wall	None
<b>Notes:</b> Water source is river. Slopes are layered cliffs.			
ewe with a yellow collar seen in this segment			
8/26-27/1994			
4,474 Acres/ 35 sheep			

# BIGHORN SHEEP HABITAT EVALUATION FIELD FORM

<b>Location:</b> Black Rock		<b>Start #</b>	<b>End</b> washed out bridge
<b>Category</b>	<b>Score</b>	<b>Excellent 10</b>	<b>Poor- 0</b>
<b>Slope</b>	10	Suitable, >50-100%, varied, rock outcrops	Unsuitable- flat or vertical
<b>Lambing Habitat</b>		Isolated lambing shelves with difficult access	Few or none
<b>Accessibility</b>	10	Travel lanes between benches and around cliffs	Solid cliffs with no visible travel possibilities
<b>Livestock use</b>	7 Plateau	None	Heavy trailing and surface structures, including fences etc.
<b>Vegetation</b>	8	Native range with good shrub and bunch grass components	cheatgrass or seedings, no shrubs
<b>Water sources</b>	8	Numerous perennial, esp springs high on canyon wall	None
<b>Notes:</b> Old trails- no evidence of recent grazing.			
Lots of chukars			
8/26-27/1994			
5,395 Acres/ 42 sheep			

# BIGHORN SHEEP HABITAT EVALUATION FIELD FORM

<b>Location: Lookout</b>		<b>Start # Loran</b>	<b>End # Confluence</b>
<b>Category</b>	<b>Score</b>	<b>Excellent 10</b>	<b>Poor- 0</b>
<b>Slope</b>	10	Suitable, >50-100%, varied, rock outcrops	Unsuitable- flat or vertical
<b>Lambing Habitat</b>	7	Isolated lambing shelves with difficult access	Few or none
<b>Accessibility</b>	4	Travel lanes between benches and around cliffs	Solid cliffs with no visible travel possibilities
<b>Livestock use</b>	10	None	Heavy trailing and surface structures, including fences etc.
<b>Vegetation</b>	7 (low quantities) slopes 10 bot.	Native range with good shrub and bunch grass components	cheatgrass or seedings, no shrubs
<b>Water sources</b>	8 bottom only	Numerous perennial, esp springs high on canyon wall	None
<b>Notes: Large cliffs</b>			
Sheep trails in bottom			
No connection between stream bottoms and upper slope			
Lots of security crevices			
Better access across cliffs near confluence			
Fill out new form for lower about one mile			
8/26-27/1994			
8,939 Acres/ 70 sheep

# BIGHORN SHEEP HABITAT EVALUATION FIELD FORM

<b>Location:</b> Cougar/Dorsey		<b>Start #</b> Cougar Creek	<b>End #</b> Dorsey Creek
<b>Category</b>	<b>Score</b>	<b>Excellent 10</b>	<b>Poor- 0</b>
<b>Slope</b>	10	Suitable, >50-100%, varied, rock outcrops	Unsuitable- flat or vertical
<b>Lambing Habitat</b>	8	Isolated lambing shelves with difficult access	Few or none
<b>Accessibility</b>	10	Travel lanes between benches and around cliffs	Solid cliffs with no visible travel possibilities
<b>Livestock use</b>	8	None	Heavy trailing and surface structures, including fences etc.
<b>Vegetation</b>	7 sides 5 plateau	Native range with good shrub and bunch grass components	cheatgrass or seedings, no shrubs
<b>Water sources</b>	8	Numerous perennial, esp springs high on canyon wall	None
<b>Notes:</b> water source is river			
good security cover on side draws			
vegetation looks hard used to rimrock			
lots of sheep trails in this block			
part of apparent poor shape of grass is probably due to drought.			
8/26-27/1994			
7,656 Acres/ 60 sheep
